

Project

No 1 Kingsway

Location

Cardiff

Accommodation

68,000 sq ft office space

Value

£10m

Client

Helical Bar (Wales) Ltd

Holder Mathias was commissioned to design this important office building on a site facing Cardiff Castle and the City's Civic Centre. The building, on seven storeys, provides 65 car parking spaces in a three level basement area. The plan form is a 'U' shape around an atrium which has open sides glazed with 25m Planar glazing topped with an arched roof.

The predominant material in the Civic Centre, opposite, is Portland Stone and this is complemented by the full storey height pre-cast concrete panels which have a white stone aggregate. At ground floor the panels are of grey granite. Royal fine Arts Commissioned approval was obtained for this project.
