
Project

Cwmbran Town Centre

Location

South Wales

Accommodation

Refurbishment of shopping centre

Value

£8m

Client

Prudential Property
Investment Managers Ltd

The project continues Prudential's investment in the redevelopment of Cwmbran Town Centre continues. These projects are part of the second phase of works within the town centre relating to the ten year vision and future development framework identified in the masterplan for Cwmbran Town Centre, produced by Holder Mathias.

Holder Mathias' design for the regeneration of the town centre reflects this strategic importance by focusing on the provision of a major arrival point. A new circulation tower with stairs and lifts were added to the building, linking the car park levels to the new retail mall and existing pedestrian thoroughfares, whilst a dramatic glazed roof has been provided.
