
Project

New offices and Service
Response Centre

Location

Briton Ferry, South Wales

Accommodation

Administration offices, stores
and workshops

Value

£13m

Client

Neath Port Talbot County
Borough Council

Completed in December 2007, Neath Port Talbot Council needed to consolidate various facilities, to improve efficiency and replace several existing buildings which were either coming to the end of their lease or had become unsuitable.

Holder Mathias masterplanned the six hectare site on the edge of Baglan Energy Park and designed both buildings as part of a Framework Design Consortium up to tender. We were subsequently approached by Interserve to deliver the project under the Design & Build contract.

The project comprised two separate buildings, which both achieved BREEAM very good ratings.
