
Project

Parker Hannifin Head Quarters

Location

Hemel Hempstead

Accommodation

32,000 sq ft office space

Value

£5m

Client

Parker Hannifin plc

This 32,000 sq ft 'L' shaped building forms the new European headquarters for American based Parker Hannifin plc. The scheme projects elegance and solidarity for the user whilst retaining the flexibility in the event of a reversion to tenanted space.

The main entrance, from the obscured rear car park, links via a double height reception space to the front entrance on Marylands Avenue, creating an easy thoroughfare that unites the two office wings. Triple height faceted curtain walling encloses the impressive entrance and forms a back-drop to the helical staircase. The general building form, combined with an independent partition grid, has created the opportunity for well proportioned spaces suitable for open plan or cellular use.
