

Project

Primary Health Resource
Centre

Location

Treharris, South Wales

Accommodation

A privately funded Health
Centre in collaboration with
the local Primary Care Trust

Client

Haven Health Properties Ltd

Holder Mathias Architects prepared initial concepts for the development of Primary Care Centres for Haven Health Properties Ltd. Treharris is the latest of a series being rolled out throughout Wales.

The design concept currently being examined proposes a clear organisation of the site whilst responding to its context and the design brief that has evolved with each project.

The design principles first established continue to be rigorously pursued through each project, whilst at the same time creating an individual identity and response to the site setting.
